IN SUPPORT OF PAROLE: [redacted]

Honorable Members of the Hearing Panel:

My name is [redacted] and I once again gladly inform you of my support for the release on parole of [redacted] It is my humble request & prayer, as well as that of my family, that you find [redacted] suitable at his subsequent parole consideration hearing as he no longer poses any risk of dangerousness to the public. Additionally, I thank you for advancing Jim's hearing and giving him a chance to demonstrate to you his suitability for parole.

To assist my son with the transition from prison to free society, my husband [redacted] and I would like to offer [redacted] place of residence in our three (3) bedroom home upon his release and completion of a transitional housing program [redacted] will have his own room. We will not require him to pay rent; he will, however, be required to save a portion of his income to put towards getting his own place with no time restrictions. I also offer my son use of a vehicle (2000 Toyota Tundra Truck-documentation enclosed) until such time as he can acquire one of his own Additionally [redacted] will be expected to follow <u>all</u> conditions of parole; abide by all laws, and to live in accordance with the values he has developed as a changed man. Our family is prepared and willing to give Jim all of the love, support, and guidance he needs for successful re-entry; we eagerly await the day that Jim will come home and fully believe that he will not return to a criminal lifestyle.

As his mother I can tell you that the [redacted] today is far removed from who and what he was in 1991. I know without a doubt that my son is remorseful for taking the life of [redacted] and for the suffering he caused to Ms. [redacted] ([redacted] mother) and her family. I can't even imagine what that loss must have been like; my heart hurts for her & her family, as [redacted]. Many of the conversations that I have with my son center on how ashamed he is for allowing his life to get so out of control; he genuinely regrets the choices he made as a young man and assures me that he will be a source of guidance for the younger members of our family [redacted] grandchildren, son, nephew, and nieces all love him and want him in their lives. He is an example to them, as well as to the men there at [redacted] of what it takes to turn your life around. I am proud of the man my son has become and I know he will make you proud of your decision to find him suitable for parole. Thank you for your consideration.

Sincerely,

[redacted]

Pamela R. Szoke
